This is your daily email to keep you updated on the government’s response to COVID-19 (coronavirus).

**Government coronavirus action plan**

Yesterday, the Prime Minister confirmed that the government’s response to COVID-19 remains in the Contain phase – the first phase in the government’s coronavirus action plan. The coronavirus action plan was launched last week. This document sets out what we have done to tackle coronavirus (COVID-19), and what it plans to do next, depending upon the course the current coronavirus outbreak takes.

The action plan can be found here:

Advice from Public Health England continues to be for education and children’s social care settings to remain open, unless advised otherwise. We are continually reviewing how best to support all educational settings and the impact of any measures will be considered carefully before being implemented.

**Updated travel advice for travellers returning from Italy**

Yesterday, Public Health England updated their travel advice, recommending that anyone returning from Italy should self-isolate, even if you do not have any symptoms. If you do develop symptoms, call NHS 111.

The latest travel guidance can be found here:

Further information on what you should do if you are asked to self-isolate can be found here:

**The importance of hygiene**

Personal hygiene is the most important way we can tackle COVID-19, especially washing hands more; and the catch it, bin it, kill it strategy for those with coughs and sneezes.

Wash your hands more often for 20 seconds with soap and hot water

In addition to handwashing before eating, and after coughing and sneezing, both children and staff should also wash hands after using toilets and travelling on public transport.

Public Health England has a dedicated webpage with a range of posters and digital materials at:
